

A LEADER IN COMPOSTABLE TO-GO WARES FOR FOODSERVICE AND RETAIL

World Centric is a socially responsible company who provides zero waste solutions to reduce environmental impact. Our vision is a just and sustainable world, where humans live simply and tread lightly.

PRODUCTS MADE FROM PLANTS, NOT PETROLEUM

INGEO™ PLA

- Polylactic Acid (PLA) is a thermoplastic aliphatic polyester derived from renewable resources in the USA (primarily corn).
- Compost within 2-4 months in a commercial composting facility.
- Freezer safe.
- Heat sensitive (except for cutlery).
- Cutlery (made from corn resin & talc) can handle up to 120° Fahrenheit.

PLANT FIBER

- Made from sugar cane and/or wheat straw, both agricultural bi-products.
- Compost within 2-4 months.
- Safe for hot or cold foods.
- Microwavable & freezer safe.
- Safe for gluten and corn-based food allergies.

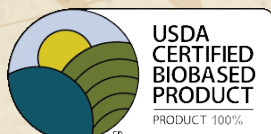

PAPER

- Made from FSC certified paper.
- Compost within 60-80 days.
- Microwavable & freezer safe.
- Hot cups are lined with Ingeo™ PLA.

THIRD PARTY CERTIFICATIONS

The **Biodegradable Products Institute** is a third-party organization that reviews and certifies compostable products that meet ASTM D6400 and ASTM D6868 conditions for compostability.

The **USDA Biobased Product** label indicates that a product has been independently certified to meet USDA standards for biobased content. Biobased products are composed either partly or entirely of renewable plant materials.

World Centric has been a **Certified B Corp** since 2010. B Corps are certified by the nonprofit B Lab to meet rigorous standards of social and environmental performance, accountability, and transparency.

Forest Stewardship Council certification supports responsible forest management worldwide. Certified products are verified from the forest of origin through the supply chain.
